How do you choose the right accent chair for your space? We suggest skipping the rest and head straight for this modern classic. Much like suede, the Connor occasional chair is strapped in soft, high-quality top-grain leather, perfect for leisurely lounging. It also has a distinctively sturdy leather sling that's reclined for all sorts of relaxation. A little sculptural with a luxe dash, this chair's sleek and robust iron frame adds an industrial edge to the smooth brown leather.
