Ampere Planter, White, Large

Price: \$899.00

	Height	Width	Depth
Overall	23.00	24.50	24.50

For those who love to surround themselves with banks of flowers in a riot of colors but who have contemporary tastes, we offer the Ava Large Planter. Made of composite in a creamy finish, this garden accent will allow the flowers or plants within it to take center stage. The character of the surface illustrates the talent of our finish artisans and the rolled lip on its topmost edge is a tailored design note. This planter is just as perfect for indoors, as it does not come with a pre-drilled hole. If you do bring it inside, place this garden planter in front of a glass door and watch the flora in it thrive! We have a smaller version of the Ava, both of which reflect the ethos that Phillips Collection personifies: modern organic.
