We at the Phillips Collection are known for our cheeky flair when it comes to our sculptural offerings and our Crazy Wire Collection is no exception. The Crazy Wire Retriever Sculpture has a whimsical profile that will inspire those looking for lighter moments in their interiors to say it is definitely man’s best decorative friend. Woven from thin metal wire in a black finish, the dog sculpture has a dynamic presence at 30-inches high. We offer male and female figures in this collection, and a beagle sculpture—all of which reflect the ethos that the Phillips Collection personifies: modern organic.
