If we described the Pebble family of products as stacked stones, we'd give the wrong impression, as these furnishings are not made of rocks; they are created from long lengths of playful shapes that are reminiscent of river rocks in contour only. These are created when organically shaped pieces of mirror are encased in metal in a brushed brass finish, as is the case with the Pebble Table Lamp. The collection also includes an end table, floor lamps, and mirrors, each of which reflects the ethos that Phillips Collection personifies: modern organic.
