Add a touch of rustic style with the Hobbs collection. Every piece in this collection is crafted from plantation-grown mango wood or reclaimed oak wood and recycled materials such as cast iron. This beautiful dining chair in gun metal finish highlights reclaimed materials and vintage design. The reclaimed metal features a hammered X-back design and metal strap detailing with rivets, and the reinforced legs provide additional stability. The industrial design of the chair pairs perfectly with a favorite bistro table for a casual gathering spot, or pull it up around a favorite kitchen table for a cute family and comfortable dining arrangement. Hand-crafted metalwork brings each piece to life, creating visually stunning furniture that will make a lasting impact.
