Recycled wood and iron fuse together in our Industrial Loft collection to create eclectic pieces of furniture. Crafted exclusively from reclaimed materials, each piece in this unique collection features fine details such as adjustable hand cranks for a vintage look that blends art and function. This hand-crafted table has a reclaimed teak wood table top featuring clean lines, and the water-based catalyzed natural finish on the wood offers durability while showcasing the natural grain of the wood. Affixed to the base of the table top is a rod that fits into the iron base where the industrial crank mechanism is connected to an antique styled handle, allowing the table to be adjusted both up and down to whatever height works best for your needs. The sleek, hand-forged tripod iron base in matte black finish creates a beautiful fusion of natural and industrial elements with the teak wood top. This table requires some light assembly, and with materials of the finest quality, it will be an effortless addition to any home.
