Recycled wood and iron fuse together in our Industrial Loft collection to create eclectic pieces of furniture. Crafted exclusively from reclaimed materials, each piece in this unique collection features fine details such as adjustable hand cranks for a vintage look that blends art and function. This hand-crafted console table has a reclaimed teak wood table top featuring authentic wood cracks and knots, and the water-based, catalyzed, raw natural finish on the wood offers durability while showcasing the natural grain of the wood. The pedestal base is hand-forged iron in an antique rust finish, creating a beautiful fusion of natural and industrial elements with the teak wood top. This table requires some assembly, and with materials of the finest authentic quality, it will be an effortless addition to any home.
