Recycled wood and iron fuse together in our Industrial Loft collection to create eclectic pieces of furniture. Crafted exclusively from reclaimed materials, each piece in this unique collection features fine details such as adjustable hand cranks for a vintage look that blends art and function. This hand-crafted side table has a cast iron top with lipped edge along the base rim. Affixed to the base of the table top is a rod that fits into the cast iron base where the industrial crank mechanism is connected to an antique styled handle, allowing the table to be adjusted both up and down to whatever height works best for your needs. The sleek, hand-forged cast iron tripod base and top are both in a matte black finish, creating a unique side table with an industrial style that is unmatched. This side table requires some light assembly, and with materials of the finest quality, it will be an effortless addition to any home.
