The supple beauty of dark natural wood truly shines in the Urban Loft collection. The simplicity of the vintage panel design in the pieces of Urban Loft collection exemplifies the modern contemporary era by blending beautifully clean lines with natural materials. This beautiful sideboard features the deep, dark brown of the pieces from the Urban Loft collection, which is almost but not quite black. With a traditional charm and air of sophistication, this sideboard features an antique panel design that is wrapped in a water-based catalyzed finish offering durability for daily use. With three drawers lined along the top, and each with a simple and nearly invisible handle shaved into the top rim of the drawer, this sideboard provides plenty of room. Also featuring three cupboard doors, this sideboard includes a shelf that runs the length of the piece. The sideboard rests atop a pair of slanted, reclaimed iron U-shaped legs in antique zinc finish, creating a fusion of modern and contemporary elements. This pre-assembled dresser is made with materials of the finest quality, making it the perfect addition to any bedroom.
