The Puzzle Woman Sculpture has been forged from metal to look as if sections of it were snapped into place like a Rubik’s Twist. Once its profile was set, our finish artisans gave it added patina with a mix of black and silver finishes. This is one of our products that would look so handsome in an industrial chic interior or an urban loft. We also offer a man sculpture and a coffee table in this family of products, each of which reflects the ethos that Phillips Collection personifies: modern organic.
