Create a clean, sophisticated look with Greenington's Park Avenue bedroom collection. The sleek modern design and simple clean lines of the Park Avenue platform bed features a craftsman-built frame in solid Ruby bamboo, with two removable back cushions adding a dramatic focal point to the headboard, angled for good looks and comfortable lounging in bed. Heightening Park Avenue's upscale style is a slim black steel support and legs accenting the solid Ruby bamboo side rails and footboard. Sustainable and earth friendly, Ruby is not a surface stain, the color is the result of an innovative new process using earth friendly heat and steam, to entirely transform the solid bamboo material into Ruby's deep red color. The Park Avenue platform bed is designed for use with a mattress only, which is supported with a solid bamboo European slat system, eliminating the need for a box spring, and providing constant ventilation for your mattress. Available in Queen, Eastern King, and California King sizes. Discover the expert craftsmanship packed into each piece of Greenington bamboo furniture. Made using an eco-friendly, renewable resource harvested from fully sustainable and rapidly growing forests. Features: • Crafted in 100% solid Moso bamboo • No plywood, particle board, or MDF • Earth friendly, sustainable resource • 20% harder than Red Oak • Beautifully finished all the way around • Solid bamboo slat system, no box spring needed • Tough metal to metal connecting hardware
