Casual and elegant, the Studio Plus solid bamboo writing desk features a tailored profile and a streamlined shape to perfectly accent your home or office. A stylish small-space solution, the scale of the writing desk works well when space is a premium. Tucked underneath the generous work surface is a slim center pencil drawer, and finishing the modern look are handsome splayed legs which elegantly taper towards the floor. Environmentally safe, Amber is not a surface stain, the color is the result of an innovative caramelization process using heat, steam, and pressure to transform the solid bamboo material into Amber's deep color. Creating a beautiful unique grain with continuous color throughout the entire material. Variation in grain and color enrich the natural beauty of bamboo furniture and make each piece unique. Slight differences in bamboo shade colors are signs that the furniture has been crafted from solid bamboo and is considered a benchmark of quality. Discover the expert craftsmanship packed into each piece of Greenington bamboo furniture, made using a renewable resource harvested from fully sustainable rapidly growing forests. Greenington's Studio Plus collection makes it easy for you to promote sustainability in a lovely and functional way in your home.
