The Austin Gray Desk has a split personality—the flowing lines of the reclaimed chamcha wood that make up the top and side are rough-and-ready while the geometric leg is sleek and studied. Combining the patina of the gray stone finish with smooth surfaces and clean lines with asymmetrical ones brings this gray wood desk a tension that will make a serious design statement in any space. In the age in which many of us are working from home, it makes sense to treat ourselves to a personable workspace help mate. We offer the Austin in several design styles, each of the home-office desks reflect the ethos that Phillips Collection personifies: modern organic.
