Subtly grained black marble reveals its natural variances in this bold cylindrical shape container with angled edge. A catch-all, a vase, a centerpiece, a simple but bold statement, the choice is yours! Artisan crafted of solid black marble and designed with simple lines to allow the natural material center stage. The stone we work with was chosen for the beauty of its natural striations and veining. No two pieces of marble are the same, and each of our marble objects will therefore be unique to themselves.
