Blade Premium Bedroom The Blade Bedroom Collection showcases an innovative and luxurious design created by the metal “blades” that start underneath the case goods and extend to the front to serve as handle for the drawers. The design is replicated on the headboard where two metal bars sink into a velvety upholstered panel. Hidden behind the edges of the panel there is a stripe of led lights that serve as courtesy lights operated by invisible switches located on each side of the headboard. These panels feature eucalyptus grain black stripes over a grey color with a glossy finish. This sophisticated modern-industrial design is a great addition to the furnishing of your house. All drawers are equipped with high-quality, soft, self-closing, undermount slides with stop safety feature to prevent a full extraction. The smooth and firm opening and closing movement of the drawers convey a sense of luxury. Drawers are completely lined with fabric-like material that is scratch and stain resistant. Bed sides and footboard are assembled with cam-lock hardware that guarantee precision and sturdiness.
