Cyrus Dining Bench In Natural Sand
Price: \$749.00

	Height	Width	Depth
Overall	17.75	72.75	17.00

A strikingly simple poly-resin bench derived from river sand is polished to a smooth sheen. Angled, natural white iron legs add architectural appeal to bench-style seating. Great solo or paired with Cyrus Dining Table, indoors or out. Slight color variance is to be expected, and speaks to lava stone's organic nature. Cover or store indoors during inclement weather and when not in use.
