The Cast Naturals Collection highlights our skills at taking an innovative material and making it feel as if it sprang from nature. The Cast Root Bronze Console Table is made of composite that has been molded to look like a piece of harvested wood that took nature eons to create, then finished in bronze. The advantage of having a console table made from this durable material is that it will long outlast its natural counterparts pulled from the forest floor. The Cast Root Console is suitable for outdoor use, but it will develop a patina over time if exposed to water. This bronze console table is the perfect representation of the Phillips Collection ethos: modern organic.
