The Cast Naturals Collection highlights our skills at taking an innovative material and making it feel as if it sprang from nature. The Root Small Silver Dining Table Base is made of composite that has been molded to look like a piece of aged wood that it took nature eons to create, then covered in a gleaming silver leaf finish. It is so convincing to the eye because it was cast from a real root. This piece is the perfect representation of the Phillips Collection ethos: modern organic. We have a number of offerings in this material that exhibit the shapes of natural wood and stone.
