Straight lines were once deemed the realm of strict logic. This conduit design accomplishes something quite profound. It blends linear components with a pleasantly stainless steel tubular effect. Modernism used to be about extremes. Wild shapes and patterns that don't dare resemble its predecessors. We've reached an age of maturity of sorts. We appreciate style, but all the more, we respect those designs that represent a blending of cultures. The Randolph tubular stainless steel console table is famous not for its radical shape, but for the strategic transcendence that it provides. Randolph is perfect for reception rooms, living and lounge areas, and any other place in need of transformation. Set Includes: One - Randolph Stainless Steel Console Table
