We at Phillips Collection are known for our furnishings in personable wood that we responsibly source from the jungles of Asia. We have rescued the reclaimed wood pieces like the Round Natural Wood Stool from being one of nature's finest castaways by making them into elemental design statements. One design distinction of note on this stool is the natural graining of the wood on the sides and the textural beauty of the rings on the top that illustrate the life of the tree. This round stool reflects the ethos that Phillips Collection personifies: modern organic.
