Overall	59.00	118.00	84.00

A merger of the best-selling Dusk dining table and Float bed product lines, the Dusk bed makes a major statement. The headboard is composed of the squares that make up our Dusk dining table, and is meant to be placed against and mounted to the wall. The bed frame, from the Float bed, is pushed against the headboard. Please note that although hardware is available to help attach the frame to the headboard, even with this minimal hardware the bed cannot be floated in the middle of a room.
