Overall	67.00	176.00	17.00

Domino is modular furniture stripped to its essential, as it is as easy as it seems to play with this system. Stack each unit vertically or horizontally depending on the space you have and the type of combination you wish to build. The Domino can be used as a shelf against a wall, as an entertainment system for your tv, or as an accent that can be wrapped around a couch.
