With its arresting design aesthetic, the Archello line of lighting brings a striking note to your home. The caged construction contrasts a matte black metal frame exterior with a faceted, diamond-like geometry against the reflection of the lights on polished chrome or antique brass finish fixtures inside. With a look that is inspired by classical designs yet neither entirely old nor new, Archello lighting will become a focal point of both contemporary and traditional design schemes and will create an especially compelling note in a minimalist setting. Available as a flush mount or chandelier. 3 Light Flush Mount Fixture, Matte Black with Antique Brass Accents
