Molten glass has an inherent beauty because of its artisan-crafted, organic form. The natural glass shade variation creates dramatic light play and contrast, especially when combined with the modern appeal of its freeform black fabric cords and natural brass canopies. A true modern beauty, the Molten Spider Chandelier is stunning in a variety of configurations that suit your unique needs. Place it in a kitchen, dining room, over a bed, or down a hallway for a dramatic lighting statement.
